

Would You Like to be a Part of Sun City Center Community Association's History?

On January 13, 2024 the SCC History Society erected a National Historical Landmark celebrating the founding of Sun City Center and Del Webb's achievements. There are only 2,600 National Historical Landmarks in the USA and we have our own thanks to the hard work of the SCC History Society.

Because the sign is scribed on two sides, the Community Association and the History Society would like to build a brick pad around the area so residents and visitors can walk around and read both sides. You are invited to purchase a memorial brick (4"x8" \$100 or 8"x8" for \$250). Letters only and we'd like the inscription to involve history. If you're multi-generational, you can inscribe your families' name and the date they originally came to Sun City Center; if not, start your own legacy with your name and year you moved here. All proceeds go to the Future Facilities Funds thanks to the SCC History Society.
